

RED SEA DIVING LIVEABOARD

3rd Sept 10 — 10th Sept 10

SOUTH & ST JOHNS: DEPARTING FROM MARSALA GHALIB
Imagine waking up next to a remote reef! dropping over the side after breakfast, descending into clear warm waters amongst a vast variety of corals & marine life, soaking up the sun whilst cruising to the next site & returning from a night dive to a welcoming meal!

A liveaboard gives you the opportunity to live right over the dive sites & to experience secluded dives that are not normally available to day-boat divers.

- St. John's offers some of the most rewarding diving in the Red Sea
- The tunnels are ideal for novice cave divers
- Mantas, Oceanic White Tip, Grey Reef & Silvertip Sharks can be seen
- Habili Ali offers giant gorgonians and black corals
